INTERIOR DESIGN

Interior Designers make interior space functional, safe, and beautiful by determining space requirements and selecting decorative items, such as colors, lighting, and materials. They read blueprints and must be aware of building codes and inspection regulations, as well as universal accessibility standards.

Interior Design is the art and science of enhancing the interiors of a space or building to achieve a healthier and more aesthetically pleasing environment for the end user. An interior designer is someone who plans, researches, coordinates, and manages such projects. Interior design is also multifaceted profession that includes conceptual development, space planning, site inspections, programming, research, communicating with the stakeholders of a project, construction management, and execution of the design.

KNITWEAR DESIGN

Knitwear Design is a method by which yarn is manipulated to create fabric for use in many types of garments. Knitting creates multiple loops of yarn, called stitches in a line or tube. Knitted fabric consists of a number of consecutive rows of intermeshing of loop. Knitwear design Programme of PIFT covers wide range of subjects & contents like yarn study, fabric design, garment design, dyeing, printing, CAD knitwear design, production & design on different Knitting machines, Production systems, quality control, export documentation etc ...

In Knitwear Design(1/2 Yr)

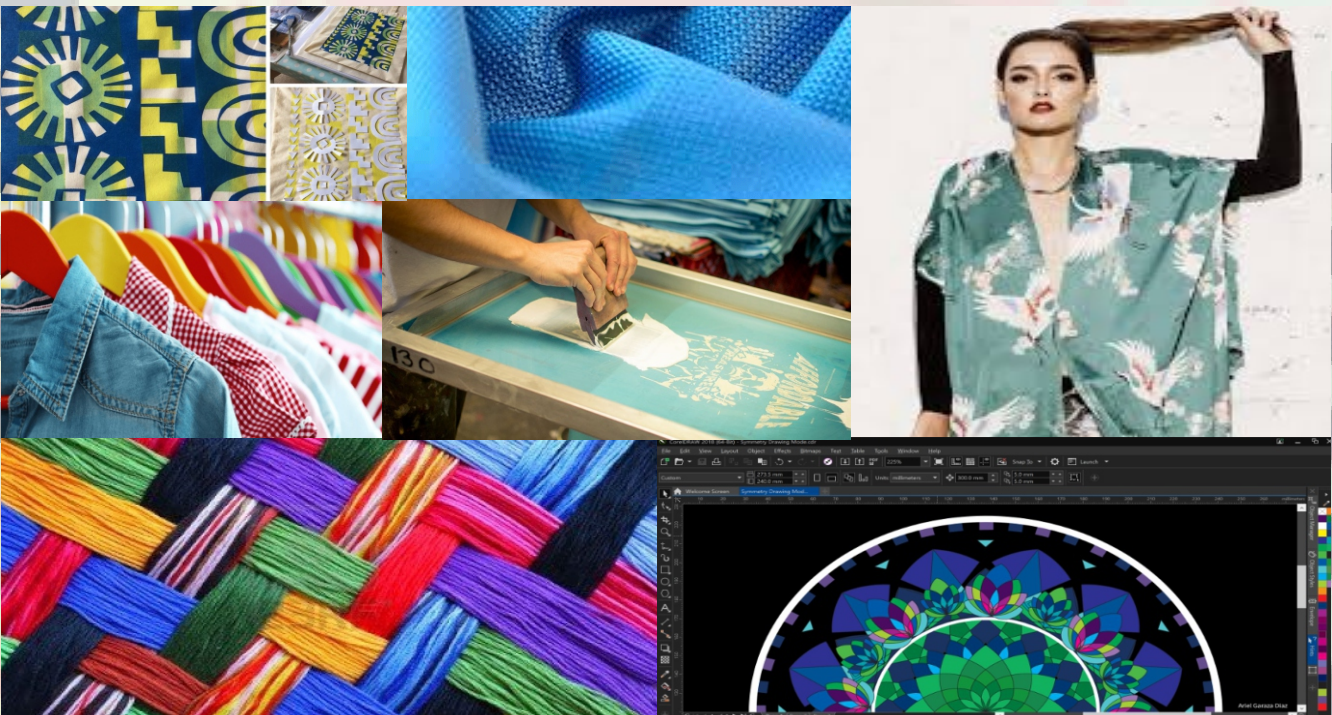

TEXTILE DESIGN

Textile Design refers to the creation of patterns and structures for woven, knitted or non-woven fabrics. It involves the process of producing design for clothes, which are used in household textiles, clothing and decorative textiles like carpets. Starting from the actual design making to the different other processes, which are related to this kinds of production are included in this field of study. To be precise, it is a process that starts with raw materials and ends in the finished product.

The main elements of this process are yarn, fiber and many more. Being a creative arena, it associates itself with making contemporary, creative and stylish designs. This even bridges carpet manufacturing, fashion designing and different fields, which are related to clothes. The usage of printing or dyeing is one of the major parts of textile design.

However, the diploma's related to this field can be either in the discipline of arts or science as nowadays, professionals use CAD (computer-aided software) for the creation of varied textile design.

Career Prospects in Textile Design

APPAREL MERCHANDISING

The **Apparel Merchandising** Program at PIFT is designed for students who want to build a strong and practical career in the business side of knitwear and textile garment Industry.. It is not just about designing garments, but understanding how fashion products are planned, developed, priced, and delivered to the market successfully.

This program offers in-depth knowledge of fabric selection, product development, sourcing, costing, and production management, along with exposure to current market trends and consumer behavior. With a strong focus on 100% practical training, students learn how to work with export houses, buying offices, and leading fashion brands. The course also develops essential skills like communication, coordination, and decision-making, which are crucial for a successful merchandiser. At PIFT, backed by 25 years of design excellence, students are guided by experienced mentors and industry-oriented training methods that prepare them for real-world challenges. Graduates can explore rewarding career opportunities as merchandisers, buyers, sourcing executives, and retail planners in both domestic and international markets. The programme starts with Basic skills in garment production machinery & equipments, fabric development, spreading & cutting, textile science, pattern making, construction, industrial organization, professional interaction. The second level is introduced with Apparel standards and specification, quality personal management and industrial relations, computers (CAD/CAM) lectures, dyeing & printing practical, business communication, work study, pattern making & garment construction, costing & sizing, ISO standards, quality parameters.

Career Prospects in Apparel Merchandising

TESTIMONIALS....

Ramandeep Singh (Knitwear Designer)

The training in knitwear design provided by @ PIFT was par excellence to industry standards which further helped me in job at New Delhi.

Mohit Jain

Fashion Design Entrepreneur (SP Garments)

The entire team of fashion design at PIFT with 100% practical training, generated skill in me to become a successful entrepreneur.

Hardeep Singh (Interior Designer)

Gained professional knowledge in interiors with complete practical skill training in PIFT, ludhiana. The overall experience in Pift related educational & practical training is always appreciable for all of us as students in learning time

Radhika Soni (Interior Designer)

The amount of practical knowledge i got from here is inexplainable. This helped a lot in the field. And moreover all the faculty was very cooperative.

RAJUL JAIN FASHION DESIGNER

I am lucky to be a former student of PIFT because i got to learn so much through the 3 years that i spent studying here. I am grateful to my faculty, Management team for their informative advices, constant support, honest remarks and guiding me throughout. At pift, greater emphasis is given on providing practical knowledge. PIFT helped me brush up my design skills and gave me confidence in my own ability.

RAJAT CHHABRA

(Interior Designer)

I feel affluent to have such magnificent faculties. Who firstly made our basics cleared and also made it mandatory to go on market survey's, site visit, exhibition, Further I am associated to a firm which guides me how to implement my designs in actual working and also let's me explore it by going on sites.

Ishu

(Fashion Designer)

The PIFT has been of great help in shaping me as a designer and my personal and technical skills. I personally believe that the collective efforts of students and the highly professional faculty has added on to our overall experience as fashion students.

Gajendra (Fashion Designer) - SURAT

It's not important what are you do for your self its important what u give for others after you done I am very lucky to be a student of Pift because environment are awesome they understand the problem of students they give proper way of education and perfect training according to environment and management give u 100% effort never give u excuse. Thanks a lot to all staff member, management team they help me for my future today I have my on garments studio (poshak house) and start one new after lockdown name of angi studio in a big level and training for freshers Pift new generation study point.

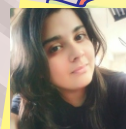

Gazal Sharma (Fashion Design)

I am Gazal Sharma student of PIFT . The special guidance of teachers and students hard work together is proving to be fruitful in making professionals out of us.

Vishal & Ajay GRAPHIC DESIGNER

We really enjoyed learning Graphic, Fashion Designing at Pinnacle Institute (PIFT). The faculties here helped me gain knowledge and guided me to improve my skills. The Placement department and management made sure that all the students got placed in good jobs.

Chitika Dhawan Fashion Designer Octave

PIFT has not only helped us with improving our creative skills but has also given us immense opportunities to experience the industry hands on. Our talent and personal skills have been taken to another level with all the hard work and inputs of students and teachers altogether.
